Final year Computer Science and Engineering student. 1<sup>st</sup> **Topper of batch** with a strong focus on software development, **Deployment on cloud**, Proven ability to solve complex **coding problems** on platforms like **LeetCode** and Hacker Rank (**5-star rating in Python**). Highly proficient in Frontend and backend development.

---

## EDUCATION

### Shreeyash College Of Engineering and Tech.

Bachelor of Technology (B. Tech) in Computer Science | CGPA: 8.08(till 8<sup>th</sup> sem)

### Samarth Mahavidhyalay.

Higher Secondary (HSC) in Science | CGPA: 8.7

Chh. Sambhajinager, Maharashtra

**June 2021 - August 2025**

Deolgaon raja, Maharashtra

**June 2020 - August 2021**

---

## SKILLS

- **Programming Languages:** Python
  - **Cloud:** Azure
  - **Frontend Technologies :** HTML, CSS, JavaScript , React js.
  - **Frameworks/Libraries:** Django, Node.js, Express,
  - **Tools:** Git, Git Hub, Postman, Jira Software **API:** Rest
  - **Database:** SQL, MongoDB
  - **Soft Skills:** Problem-Solving, Team Collaboration, Critical Thinking, leadership, Scalability, Innovation.
- 

## WORK EXPERIENCE

### Python Full-Stack Intern | The Kiran Academy | [Link](#)

**Jan 2025 - June 2025**

**Project:** Healthcare Management System.

- In this I worked on frontend as well as the ui/ux.
- Created an interactive and user-friendly frontend using HTML, CSS, JS.and React.js
- Using agile methodologies and SDLC for software development and software engineering practices with proper unit, integration and performance testing. I have responsibilities to make a proper Frontend so I used these practices.

### Python Internship and Training | Cloud that | [Link](#)

**Aug 2023 –Sept 2023**

**Project:** personal AI assistant

- Built an AI-driven virtual assistant using Python automating tasks with greater efficiency.
  - Integrated APIs to enhance AI functionality, resulting in a improvement in user task completion rates.
  - Designed and developed with voice recognition, streamlining user interactions .
- 

## PROJECTS

### Portfolio | [Link](#)

**Feb 2025 – March 2025**

- Designed and developed a website for managing events, handling frontend development.
- Created an interactive and user-friendly interface using HTML,CSS, and JavaScript.
- Gained essential skills in web development, including UI/UX design..

### Healthcare Management System |

**April 2025 – june 2025**

- Developed a responsive and user-friendly Healthcare Management System frontend using React.js..
- Created reusable components for appointments, notifications, prescriptions, and health records.
- Integrated RESTful API calls using Axios to fetch and display real-time data from the backend.
- focused on intuitive UI/UX design with Tailwind CSS and responsive layouts for all screen sizes...

### Job HuntX|

**june 2025 – working**

- Developed a job portal web application (inspired by Naukri) to connect job seekers with recruiters using React.js.
  - Implemented reusable components for job cards, filters, search functionality, and application forms.
  - Used Axios for integrating with backend APIs to fetch jobs, apply for positions, and manage user data.
  - Focused on responsive design and clean UI/UX using Tailwind CSS and modern layout principles.
- 

## CERTIFICATES

- Python full stack intern | [The Kiran Academy](#)
- Oracle Cloud Data Management 2023 Certified Foundations Associate | [Oracle](#)
- Python internship and training | [cloud that](#)
- Geodata remote sensing using python | [isro](#)
